Planned Geology Courses

courses in red are broadcast (IVC) or online
(revised 03-30-2017)

Geology Courses – Summer 2017

GEO 1010 - Introductory Geology (3) - Davis (2 sections online)
GEO 1010 - Introductory Geology (3) - Fleck (IVC)
GEO 1010 - Introductory Geology (3) - Morgan (online)

GEO 1380 - Science and Society (3) - Larsen (2 sections online)

GEO 3100 – Natural Disasters (3) – Janecke (first 6 weeks)
GEO 3100 – Natural Disasters (3) – Potter (last 6 weeks)
GEO 3100 – Natural Disasters (3) - Hochberg (Flex open online)
GEO 3100 – Natural Disasters (3) - Morgan (online)
GEO 3100 – Natural Disasters (3) - Davis (online)

GEO 3150 – Energy in the 21st Century (3) – Potter (online)

GEO 3300 – Geology of the World’s Oceans (3) – Hochberg (online)

GEO 5200 – Geology Field Camp (5) – Ault

Geology Courses - Fall 2017

GEO 1010 - Introductory Geology (3) - Davis (2 sections online)
GEO 1010 - Introductory Geology (3) - Fleck (2 sections F2F)
GEO 1010 - Introductory Geology (3) - Hochberg (IVC/blended)
GEO 1010 - Introductory Geology (3) - Hochberg (concurrent enrollment IVC)
GEO 1010 - Introductory Geology (3) - Morgan (online)

GEO 1110 - Physical Geology (3) – Newell
GEO 1110 - Physical Geology (3) - Fleck

GEO 1115 - Physical Geology Lab (1) – Newell
GEO 1115 - Physical Geology Lab (1) – Fleck

GEO 1360 – Planet Earth (3) – Larsen

GEO 1380 - Science and Society (3) - Larsen (2 sections online)

GEO 2500 - Geology Field Excursions (1) – Liddell + ?
GEO 3100 – Natural Disasters (3) – Larsen
GEO 3100 – Natural Disasters (3) - Fleck (IVC)
GEO 3100 – Natural Disasters (3) - Hochberg (IVC/blended)
GEO 3100 – Natural Disasters (3) - Hochberg (Flex open online)
GEO 3100 – Natural Disasters (3) - Morgan (online)
GEO 3100 – Natural Disasters (3) - Davis (online)

GEO 3150 – Energy in the 21st Century (3) – Potter (online)

GEO 3200 - The Earth Through Time (3) - Fleck (IVC)

GEO 3300 – Geology of the World’s Oceans (3) – Hochberg (online)

GEO 3550 - Sedimentation and Stratigraphy (4) - Liddell

GEO 3600 - Geomorphology (4) – Rittenour

GEO 4500 - Igneous and Metamorphic Petrology (4) – Shervais

GEO 4700 - Geologic Field Methods (3) – Janecke

GEO 4800 – Undergraduate Seminar (Distinguished Lecture Series) (1) – Kanda

GEO 5150/6150 - Fluvial Geomorphology (3) – Schmidt

GEO 5360/6360 - Volcanology (3) – Shervais

GEO 5520/6520 – Techniques of Groundwater Investigations (3) – Lachmar

GEO 6250/7250 – Mechanics and Processes in Earth Sciences (3) – Evans

GEO 6350/7350 – Grad Seminar in Paleontology and Paleocology (Invert Paleo) (3) – Burger (IVC)

GEO 6400/7400 – Graduate Seminar in Sedimentary Geology (Sed Petrology) (3) – Burger (IVC)

GEO 6450/7450 – Deep Time (3) -- Dehler

GEO 6580/7580 – Low Temp Thermochronology Methods and Applications (3) -- Ault

GEO 6590/7590 – Geodesy & Crustal Deformation (3) – Lowry

GEO 6600/7600 – Graduate Seminar in Geophysics – Signal Analysis (3) – Lowry

GEO 6800 – Graduate Seminar (OSL Short Course) (3) – Rittenour

GEO 6820 - Graduate Seminar (Distinguished Lecture Series) (1) – Kanda
Geology Courses – Spring 2018

GEO 1010 - Introductory Geology (3) - Davis (2 sections online)
GEO 1010 - Introductory Geology (3) - Fleck (2 sections IVC)
GEO 1010 - Introductory Geology (3) - Hochberg (IVC/blended)
GEO 1010 - Introductory Geology (3) – Hochberg for now (2nd&3rd trimester, concurrent enrollment IVC)
GEO 1010 - Introductory Geology (3) - Morgan (online)

GEO 1110 - Physical Geology (3) – Lachmar

GEO 1115 - Physical Geology Lab (1) – Lachmar

GEO 1360 - Planet Earth (3) – Larsen
GEO 1360 - Planet Earth (3) - Burger (online)

GEO 1380 - Science and Society (3) - Larsen (2 sections online)

GEO 2500 - Geology Field Excursions (1) – Shervais + ?

GEO 3100 - Natural Disasters (3) - Larsen
GEO 3100 – Natural Disasters (3) - Hochberg (IVC/blended)
GEO 3100 – Natural Disasters (3) - Hochberg (Flex open online)
GEO 3100 – Natural Disasters (3) - Morgan (online)
GEO 3100 – Natural Disasters (3) - Davis (online)

GEO 3150 – Energy in the 21st Century (3) – Potter (online)

GEO 3200 - The Earth Through Time (3) – Dehler
GEO 3200 - The Earth Through Time (3) – Fleck

GEO 3205 - The Earth Through Time Lab (1) – Dehler
GEO 3205 - The Earth Through Time Lab (1) – Fleck

GEO 3250 – Natural History of Dinosaurs (3) – Burger (IVC)

GEO 3300 – Geology of the World’s Oceans (3) – Hochberg (online)

GEO 3400 – Communicating Geoscience (3) – Ault

GEO 3500 – Minerals and Rocks (4) - Shervais

GEO 3700 - Structural Geology (4) – Evans

GEO 4800 – Undergraduate Seminar (Distinguished Lecture Series) (1) – Kanda

GEO 5540/6540 – Quantitative Methods in Geology (3) -- Liddell
GEO 5510 - Groundwater Geology (3) – Lachmar (IVC)

GEO 5530/6530 – Petroleum (3) – Evans

GEO 5600 – Geochemistry (3) – Newell

GEO 5660/6660 -- Applied Geophysics (4) – Lowry

GEO 5680/6680 – Paleoclimateology (3) – Rittenour

GEO 5610/6610 – Tectonics of Am. Transform Plate Boundaries (3) – Janecke (2nd half semester)

GEO 6350/7350 – Grad Seminar in Paleontology and Paleocology (Invert Paleo) (3) – Liddell

GEO 6820 - Graduate Seminar (Distinguished Lecture Series) (1) – Kanda

Geology Courses – Summer 2018

GEO 1010 - Introductory Geology (3) - Davis (2 sections online)
GEO 1010 - Introductory Geology (3) - Fleck (IVC)
GEO 1010 - Introductory Geology (3) - Morgan (online)

GEO 1380 - Science and Society (3) - Larsen (2 sections online)

GEO 3100 – Natural Disasters (3) – ????? x2
GEO 3100 – Natural Disasters (3) - Hochberg (Flex open online)
GEO 3100 – Natural Disasters (3) - Morgan (online)
GEO 3100 – Natural Disasters (3) - Davis (online)

GEO 3150 – Energy in the 21st Century (3) – Potter (online)

GEO 3300 – Geology of the World’s Oceans (3) – Hochberg (online)

GEO 5200 – Geology Field Camp (5) – Ault
